Ready to play right out of the box, the all-new ONIX Fuse Pickleball create a consistency between indoor and outdoor game. These all-new pickleballs are specifically designed and optimized for pickleball, providing the truest flight and most authentic bounce available. The Fuse balls have exceptional seam welding offering greater durability and resists splitting. The superior balanced ball is strategically aligned with precision-drilled holes. The indoor ball provides a larger hole pattern and less bounce off of indoor courts, such as concrete surfaces or gymnasium floors. The balls meet USAPA requirements for outdoor tournament pickleball play.

Color Options: Orange, Yellow and Neon Green

- ONIX Fuse Pickleball Balls are ready to play immediately out of box
- Fuse ball creates consistency between the indoor and outdoor game
- Exceptional seam welding offers greater durability and resists splitting
- Superior balance with strategically aligned, precision-drilled holes
- Meets USAPA requirements for indoor tournament pickleball play

ONIX DURA FAST 40 OUTDOOR PICKLEBALLS

ITEM NUMBER: HKZDF004-Y (YELLOW, BOX OF 4), HKZDF004-N (NEON, BOX OF 4), HKZDF100-Y (YELLOW, BOX OF 100), HKZDF100-N (NEON, BOX OF 100), HKZDF640-Y (YELLOW, BOX OF 640), HKZDF640-N (NEON, BOX OF 640)

The official ball of the 2019 US Open Pickleball Championships, each Dura Fast 40 Pickleball is manufactured to exacting standards as a seamless one piece ball before our hole pattern is machined into it. The attention to detail in this process creates the longest lasting, highest quality pickleball on the market today. Choose from two different colors - neon or yellow.

Color Options: Neon and Yellow Orange

- Developed specifically for the game of Pickleball
- Traditionally used outdoors
- Official Ball of the 2019 US Open Pickleball Championships
- Can also be used for baseball and softball training drills
- Your choice from two different colors - neon and yellow

The portable instant pickleball match. Ideal for building skills & having fun!

- Ages 8+
- Anyone can carry it
- Everyone can play it!
- Ultra quick set up and take down.
- Active game with smaller court and reduced speed.

Includes:

- 2 wood paddles
- 2 pickleballs
- 12ft. net kit
- Carrying case
- How to play guide

INNOVATION

Ball Technology

As pickleball enthusiasts, we know that the essence of the sport lives in the ball. After looking at what was available on the market, we set out to engineer a better pickleball that was designed specifically for the sport and unrivaled in quality and performance. After two years of extensive research and development, the Onix Fuse Ball was born. We created a ball that combines an exclusive material formula and meticulous structural engineering to make the most technologically advanced ball available. The superior playability of the Onix Fuse Ball has captured the attention of the pickleball community and is revolutionizing the sport.

- 
AUTHENTIC BOUNCE TECHNOLOGY
 Designed specifically for the sport of pickleball, the Onix Fuse ball features our proprietary material formula that delivers the most consistent and authentic rebound available and maintains its shape shot after shot.
- 
TRUE FLIGHT TECHNOLOGY
 The Onix Fuse ball delivers the most consistent flight available with perfectly round holes that are strategically aligned and precision drilled for optimal balance and perfectly symmetrical ball halves that are heat welded to create an extraordinarily smooth and durable seam.
- 
WEATHER WEIGHTED
 The Fuse Outdoor Ball was strategically designed with heavier weighting and smaller holes to drastically reduce the impact of wind during play, allowing for truer flight during windy conditions.

Paddle Technology

Every athlete knows that having the right equipment is essential in achieving success. In the sport of pickleball, having the best paddle for your game is critical and differentiates good players from great players. At Onix, we are committed to developing innovative paddle technologies that allow you to play at peak performance. The patented technologies we've developed enable players to execute harder smashes, better control, and faster reactions. Although there is no substitute for training and hard work, an optimized Onix paddle can take your game to the next level.

- 
RIBTEC CORE™
 Creates stability and structure with a carbon rib structure that connects the two faces to provide unmatched control while powering the paddle through the ball with increased velocity and accuracy *Patent Pending
- 
FUSION CORE™ TECHNOLOGY
 Utilizes the two most popular cores: a polypropylene base with a precisely placed nomex insert that boosts power in the sweet spot and offers excellent control and pop along the perimeter of the paddle. *Patent Pending Technology
- 
POLYPROPYLENE HONEYCOMB CORE
 Provides balanced performance of touch, power and pop
- 
NOMEX HONEYCOMB CORE
 Provides excellent power while maintaining control
- 
ALUMINUM HONEYCOMB CORE
 Provides heightened touch with ample amounts of power
- 
FOAM CORE
 Offers sound dampening properties while maintaining performance
- 
GRAPHITE FACE
 Offers light-weight characteristics for added speed, pop, and maneuverability
- 
COMPOSITE FACE
 Offers medium-weight characteristics for added power and touch

- 
ERGO HANDLE
 Contoured to the shape of your hand to index paddle for increased accuracy and control
- 
TENNIS HANDLE
 Mimics the handle shape of a table tennis racket with a flared, wood handle
- 
WIDE BODY SHAPE
 Extends the width of an oversized paddle shape for the largest sweet spot
- 
OVERSIZED SHAPE
 Extends the width of a standard paddle shape for a larger sweet spot
- 
TEAR DROP SHAPE
 Uniquely balances weight with tear drop shape for a higher, more-accessible sweet spot
- 
HYPERLITE
 Made of the lightest materials for the fastest and most agile paddle
- 
LIGHT-WEIGHT
 Made of light-weight materials for increased speed and agility
- 
MEDIUM-WEIGHT
 Balances power and speed for all-around performance
- 
HEAVY-WEIGHT
 Delivers heavy-hitting power for added strength behind smashes
- 
ONE-PIECE CONSTRUCTION
 Improves paddle consistency with a single molding process
- 
BOOSTED SWEET SPOT
 Activates sweet spot with a nomex insert for optimal weight distribution

PICKLEBALL

- **The fastest-growing** racket sport in North America.
- This sport has been made popular by former tennis and badminton players who find it **softer on the knees and shoulders.**
- Practiced by **men and women of all ages.**
- Singles and doubles are both **very popular.**
- Played **12 months** a year.
- Played **outdoor** and **indoor.**
- A fun and **friendly** sport activity of a **social nature** with a **multi-generational** appeal.
- **Easy to learn** for beginners, but can develop into a **very fast and competitive game** for experienced players.
- Now played in more and more **schools, recreation centers and public and private facilities** both indoor and outdoor.
- Clubs and tournaments in all regions of Canada, already present in **hundreds of cities** and growing rapidly. Regular tournaments with **hundreds of players.**
