"The ultimate new fun sport for young and old, to enjoy with friends or family.

On the beach, in the park or even indoors: the fast-paced game delights everyone and you'll quickly find interested players. Two teams of 2 players compete against each other. All are evenly distributed around the net. To serve, the ball is hit with the palm of the hand on the net, so that it flies towards the opposing side. The opposing team is allowed to play the ball up to two times before it has to be hit back into the net. The goal of the game is that the ball isn't returned by the opposing team. After the serve, each player is free to move around the net, making the game so fast!

With short and long passes, with simulated attacks and other tricks you try to lure the opponent out of range. If the team does not manage to play the ball back and the ball falls to the ground, the team gets 1 point. As soon as a player is hindered, he also gets 1 point. The first team to reach 21 points, and has a 2-point lead wins the match.

This set has a very special sound, a precise flight curve and the LED night play option are the special features of the new Jazzminton Set from Schildkröt Funspots. When the ball bounces, the rebound effect of the so-called "birdies" creates a completely new playing experience, they bounce like a "bouncy ball". By a special arrangement of the springs, the ball is set in self-rotation. The result is a very stable flight curve of the birdies, which makes Jazzminton fun for everyone! The set comes in different ball variants and allows playing distances from 1.5m to 10m. Three different birdies offer all the extras for beginners (red feathers - slow), experienced players (yellow feathers - fast) and the LED ball for playing in the dark (orange feathers). An LED light in the head of the birdie lets a motion sensor light up when the birdie hits the bat - after about 10 seconds the light goes out again. So the indoor or outdoor game can begin at any time, whether completely without a net or as a battle with a badminton net. Play anytime and everywhere! The Jazzminton set consists of 2 rackets with pleasant non-slip soft grips (lacquered 7mm plywood, handy and light, 33cm x 19cm), 3 Birdies shuttlecocks (1 red slower, 1 yellow faster, 1 more transparent with LED light in the head) and comes in a blister pack.
