

ONIX™

NEW PRODUCT INTRODUCTION

The ONIX™

OUTBREAK

Paddle

The **OUTBREAK** utilizes a brand new innovation in the sport - a Graphite face reinforced by

TeXtreme[®]

TeXtreme[®] uses

Spread Tow carbon fiber

which takes the circular carbon fiber strands and flattens them.

The carbon fiber is then woven together, giving you in essence two layers of carbon fiber.

This is unlike traditional uni-directional carbon fiber faces, like the Z5 paddle.

This means:

- Thinner laminates
- Less excess plastic and weight
- Straighter and stronger fibers

TeXtreme REINFORCED BY
ENJOY LIGHTER PERFORMANCE

- Lighter, better, faster
- Top performance
- Perfect feel and control

TeXtreme® carbon fabrics (Spread Tow)

Conventional carbon fabrics (Regular tow)

- 1** The Spread Tow structure makes it possible to achieve thinner laminates.
- 2** Straighter fibers with reduced crimp optimize and strengthen the composite.
- 3** Lower crimp reduce the amount of excess plastic, thereby minimizing weight.

To the Picklenall player, this means:

- More touch and feel since the material is stronger than normal graphite with straighter carbon fiber strands.
- Less excess plastic means the face, itself, is lighter

TeXtreme®

has already been a proven in the
sporting goods industry by...

Bauer Hockey

Cobra Golf

And others:

- **Faction Snow Skis**
- **Bell Motorcycle Helmets**
- **Giro Bike Helmets**

By reducing the weight of the graphite face, the **OUTBREAK** has also increased the thickness of the polypropylene core to roughly $5/8''$

For the pickleball player, this means it will absorb more of the ball impact, giving the player even more touch and feel without sacrificing baseline power.

The **Outbreak**
comes in two colors:
Blue & Red

Outbreak

Specs

Face: Graphite reinforced by **TeXtreme**[®]

Core: Polypropylene

Weight: 7.8-8.2 oz

Handle: 5"

Grip: 4.25"

Cost: \$140⁰⁰

MSRP: \$199⁹⁹

MAP: \$179⁹⁹

Available: December 2018
